

Title

Trinity Space Exploration

Short Pitch

We explore the unexplored searching for life on other planets that have been overlooked by other agencies, while producing Ships for everybody to use.

Long Pitch

Trinity Space Exploration (TSE) utilizes innovative technologies, such as 3D printing, to create cheap space travel. Our methods allow us to be able to explore planets that may contain life for half the costs other agencies quote. TSE intends to disrupt the space travel industry and aims to dominate the market within the next 10 years, and ultimately mass producing space rockets for the average person to use.

Personas

- Trinity Space Pirate: Current TSE Employee
